(Note: these video clips were not made by this channel. Also, this channel neither expresses agreement with or disagreement with the Russian language messages which have been inserted into these clips - for I do not read or speak Russian and therefore do not know what is being said.)

In this video, many strange and heretical teachings are offered by the head of the "MP" and "ROCOR-MP", i.e. that the different religious traditions of the world pray to the one God, and that the morality of Orthodoxy and of Christ is synonymous with the morality of the Papists and Muslims (this is an insult to the divine commandments and a demolition of the ties of dogma and morality/ethos), and that the One Church is supposedly divided and consists of both Orthodox and Papists.)
